

LBN Global Track and Trace Option

Track Shipments app

February 26th, 2021

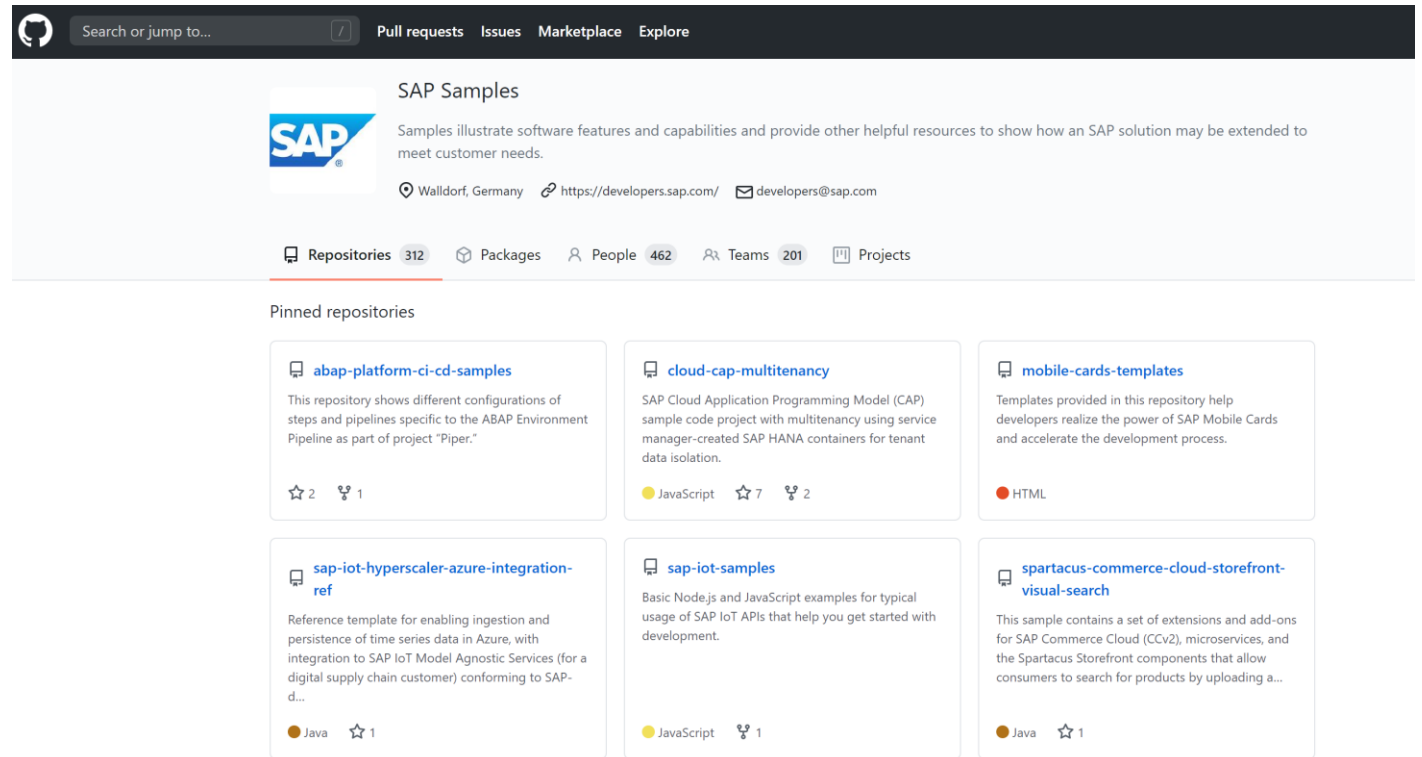

PUBLIC

Background Introduction

GTT Template apps* stand for codes, scripts, and associated documentation published by SAP to show GTT customers and partners how to use the global track and trace option. They can also accelerate customers' and partners' development of applications that are intended to work with the option.

Template apps for LBN global track and trace option

- Track SO Fulfillment app
- Track Shipments app
- Track Purchase Orders app
-

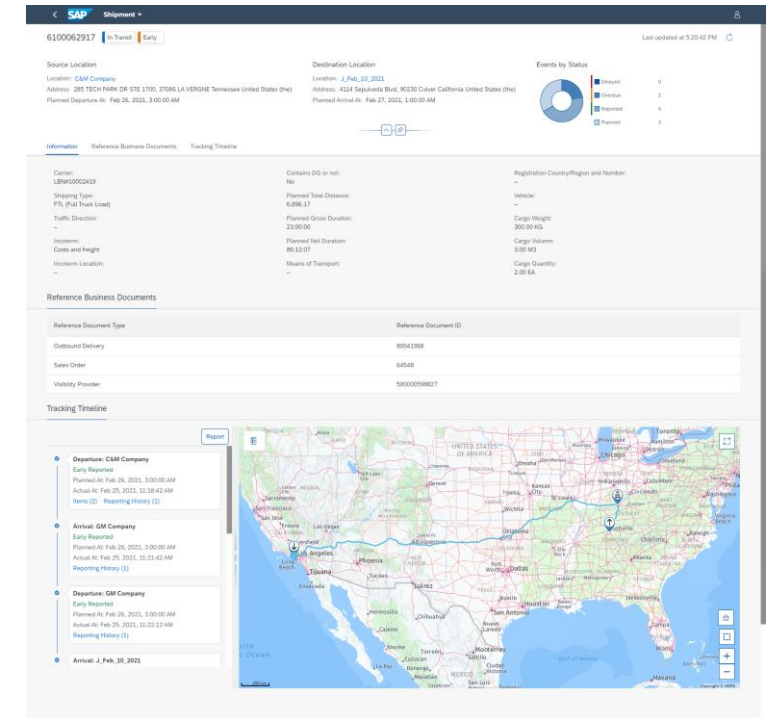

Track Shipments App

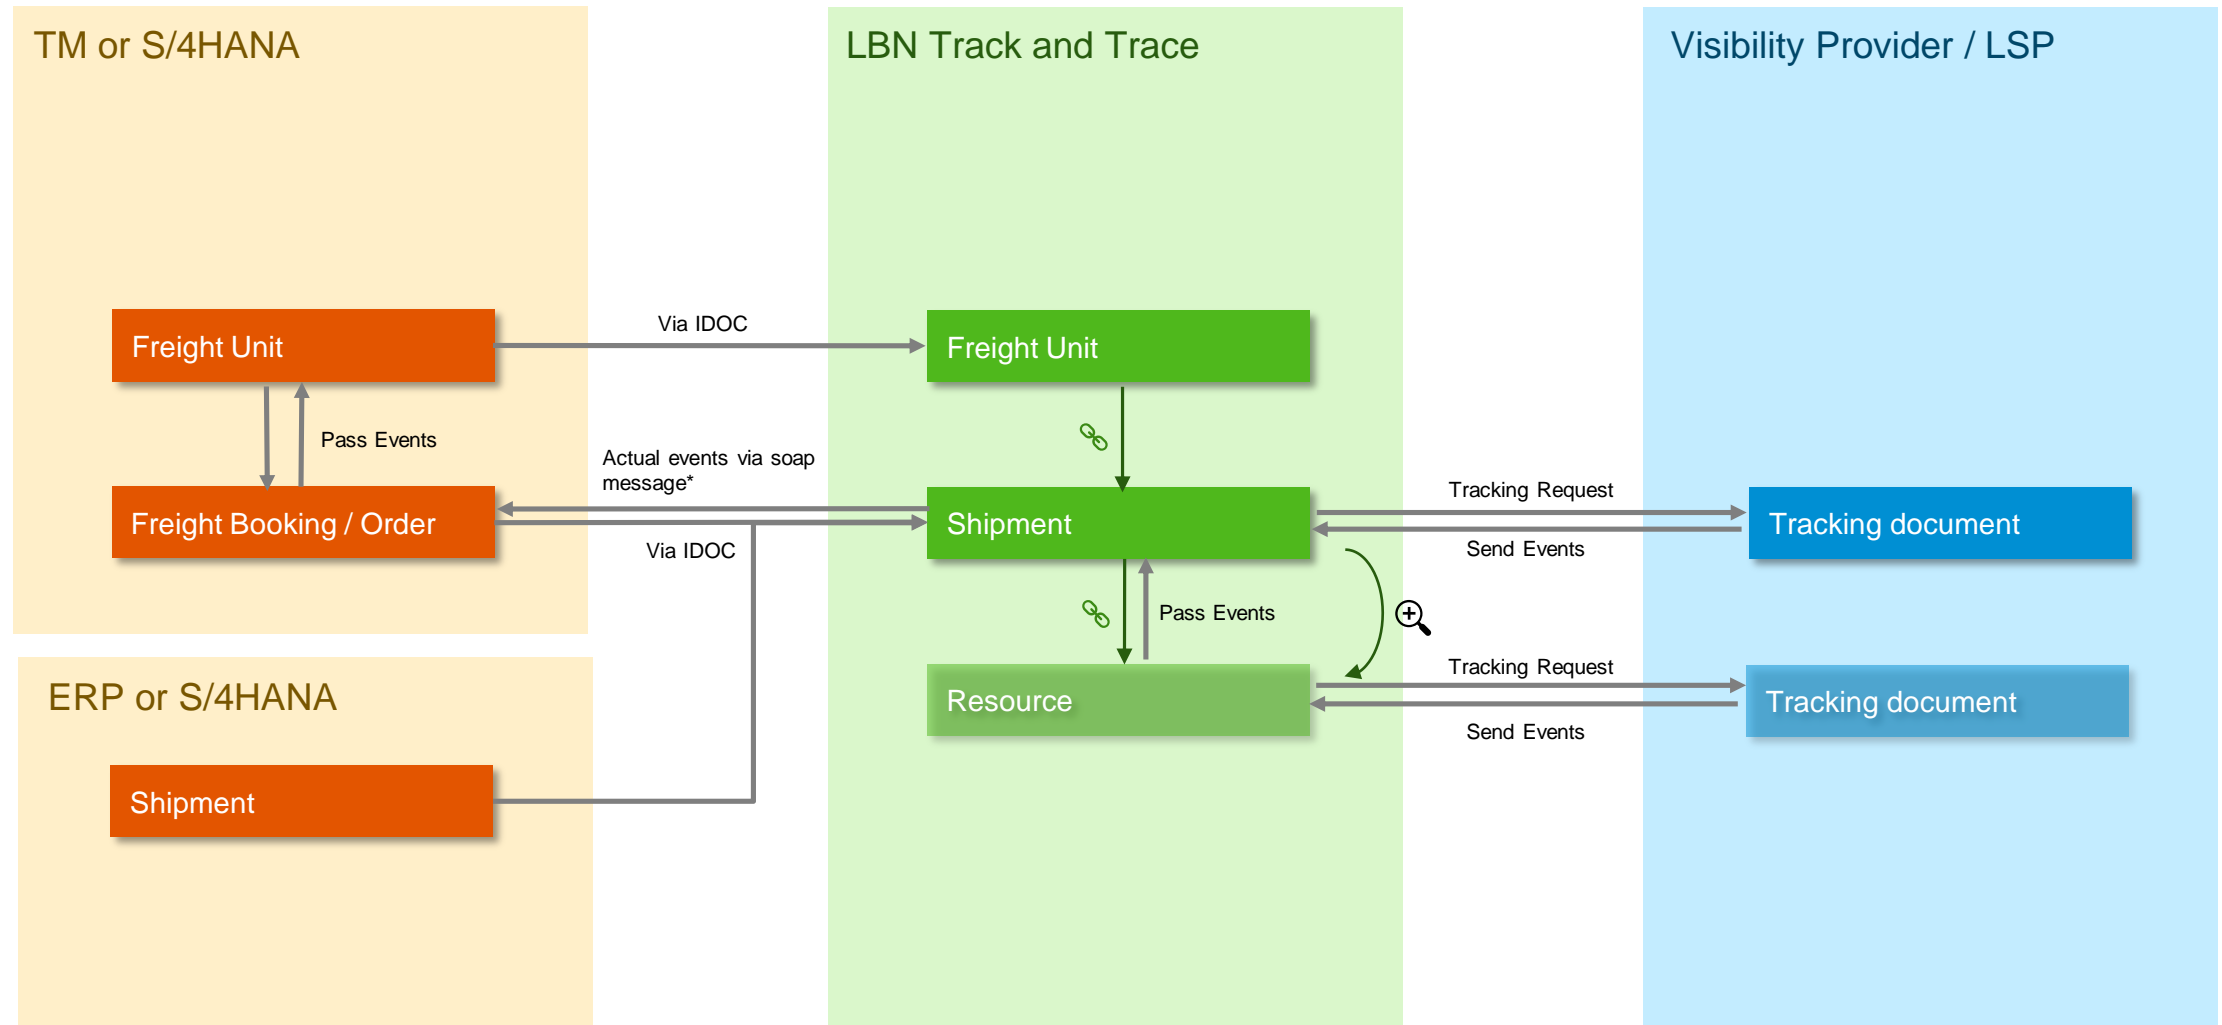

Introduction

Track Shipments app is for **transportation planners** to track the execution status of shipments, road freight orders or ocean freight bookings and **report events manually**. It answers following questions:

- Where is my shipment/road freight order/ocean freight booking?
- Has my shipment/road freight order/ocean freight booking been executed?
- What is the **next stop** of my shipment/road freight order/ocean freight booking?
- What is the **ETA** of my shipment/road freight order/ocean freight booking?

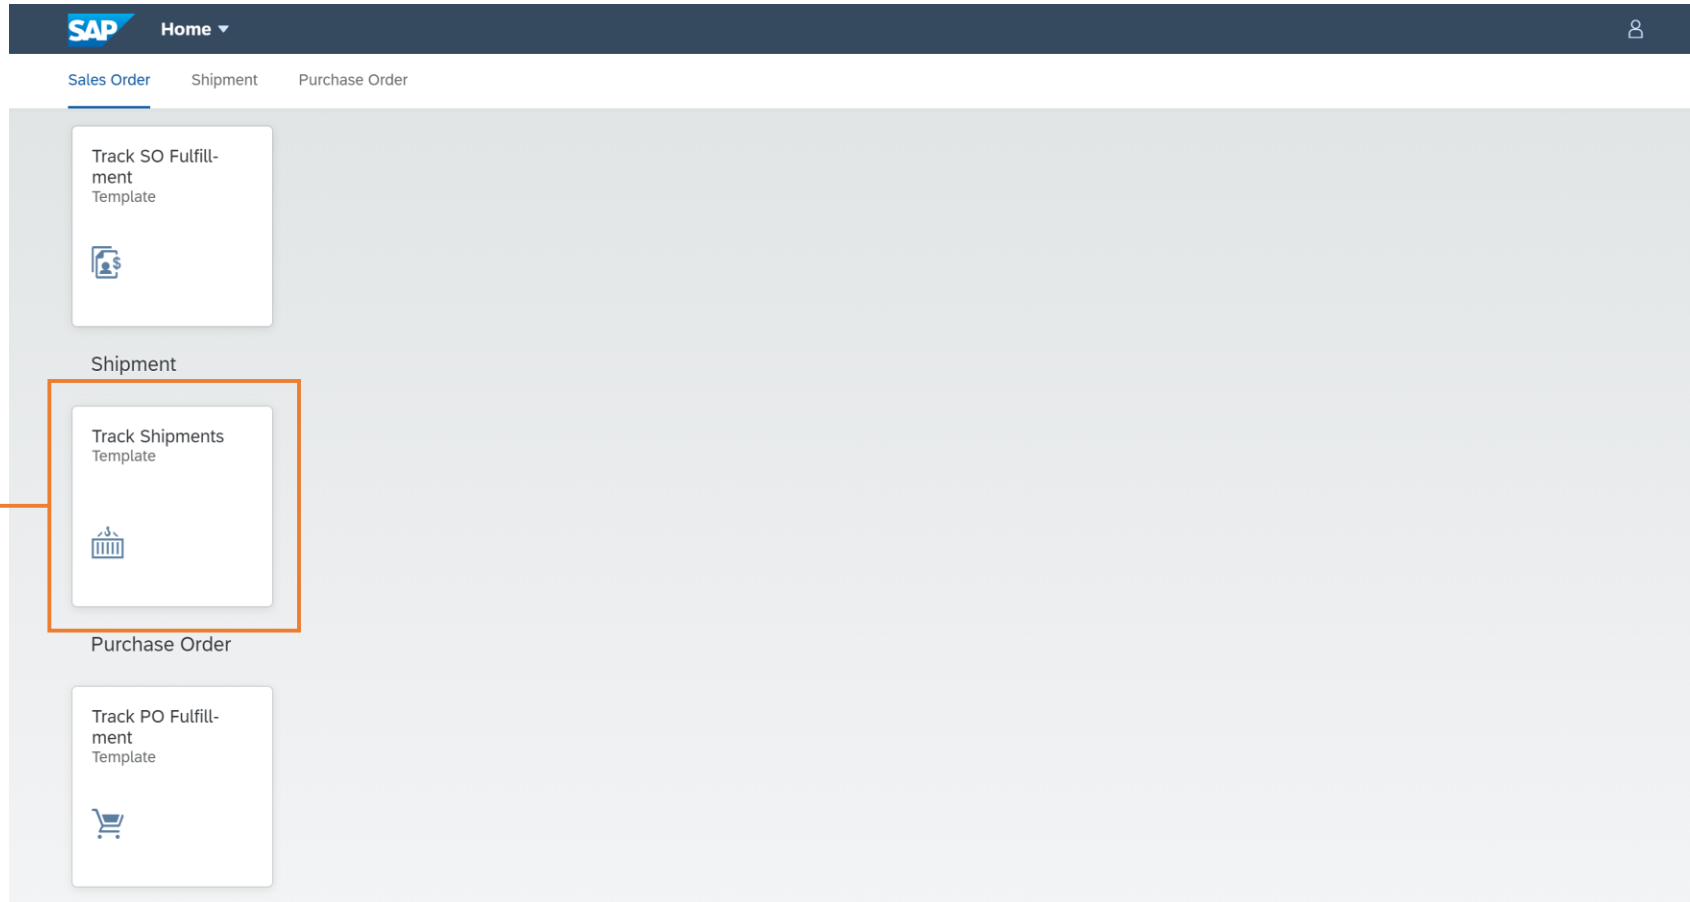

Tracked Process Modeling in Track Shipments App

You can change the item quantity when report planned POD event.

Execution Status

By default, the shipment's execution status is “**Not Started**”.

If the shipment's planned event is reported, the execution status will be changed to “**In Transit**”.

If the shipment's all planned PODs are reported, the execution status will be changed to “**Completed**”.

Once the execution status is set as “**Completed**”, it cannot be changed any more.

You can set your own execution status logic in Event-to-Action script.

Report Event from Visibility Provider to GTT
